

Usporedi. Stavi jedan od znakova $<$, $>$, $=$.

$2 \bigcirc 4$

$2 + 1 \bigcirc 4$

$5 \bigcirc 1 + 4$

$5 \bigcirc 3$

$3 + 2 \bigcirc 1$

$4 \bigcirc 3 + 2$

Dopuni tako da jednakosti budu točne.

$1 + \bar{\bar{1}} = 5 \quad 1 + \bar{\bar{1}} = 2 \quad \bar{\bar{1}} + 3 = 5 \quad \bar{\bar{1}} + 2 = 5$

$3 + \bar{\bar{1}} = 4 \quad \bar{\bar{1}} + 2 = 4 \quad \bar{\bar{1}} + 2 = 3 \quad 1 + \bar{\bar{1}} = 4$

$2 + \bar{\bar{1}} = 3 \quad 3 + \bar{\bar{1}} = 5 \quad \bar{\bar{1}} + 1 = 4 \quad \bar{\bar{1}} + 4 = 5$

$1 + \bar{\bar{1}} = 3 \quad \bar{\bar{1}} + 2 = 3 \quad \bar{\bar{1}} + 1 = 3 \quad 2 + \bar{\bar{1}} = 4$

Izračunaj i oboji.

$2 + 1 = \square$

$3 + 2 = \square$

$1 + 3 = \square$

Nadopuni.

Brojevi koji se zbrajaju zovu se _____ .

Broj koji se zbrajanjem dobiva zove se _____ .
